

BACH HOTEL

Modular 21.5" Kiosk.

Designed to optimize self-service check-in and check-out management, BACH acts as a support to the traditional reception and also enables staff-free operation, active 24/7. Guests benefit from the absence (or at least the reduction) of waiting times and a service available without time limits. The BACH kiosk offers guests the freedom to access at any time, while simultaneously guaranteeing privacy and security. The BACH kiosk is extremely versatile and ready to use after a simple installation. Its elegant and contemporary design makes it an effective solution that also focuses on resource efficiency. Manage check-in/check-out, document scanning, payments, and much more, all from a single intuitive interface—BACH is the answer.

Your new reception 24 hours a day, 7 days a week
